PROJECT PLAN

- Paint or stain your project pieces and allow to dry completely before assembling.
- Attach one bottom panel to one side panel using glue and two screws. Be sure to align the edges before securing.
- Repeat with the second side and bottom for the second base.
- Dry-fit rounded corner pieces on each base, noting that they're mirror images of each other -- or "flipped." Attach by running a bead of glue along the inside edges (shown in gray). Hold in place or clamp until dry.
- Repeat for the second bookend.
